***Allowable Subject Matter***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: There is no teaching or suggestion in the prior art of the claimed combination having a beam interposed between the pedal, arm and the input rod for transmitting an output force from the pedal arm to the input rod, the beam pivotally connected to the pedal arm and rotatable relative thereto; a cam defining a cam profile, the beam contacting the cam and following the cam profile as the pedal arm swings relative to the vehicle, the cam profile shaped to adjust the position of the beam to modify the ratio of the output force to the input force of the brake mechanism; re claim 11, a pedal arm pivotally connected to the vehicle, the pedal arm receiving an input force from an operator of the vehicle that is transmitted to the input rod as an output force for braking the motor vehicle; a beam pivotally connected to the pedal arm at a first point along the beam, the beam connected to the input rod at a second point along the beam, the beam transmitting the output force from the pedal arm to the input rod; a cam having a surface defining a cam profile; the beam contacting the cam at a third point along the beam and following the cam profile, the beam pivoting relative to the pedal arm as the beam follows the Cam profile to adjust the ratio of the output force to the input force of the brake mechanism.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
